A blast from the past

The gunpowder works at Faversham Lakes was part of a thriving local industry that supported England's military and engineering prowess across the world.

A network of waterways ran across the site, then known as Marsh Works, connecting the buildings that housed each stage of the gunpowder production process.

Today some of those buildings have been restored and form a heritage hub that serves as a reminder to the location's explosive past, along with a blast wall and two original cannon.

Gunpowder from the town was not just used in warfare. It played a key part in the industrial revolution, by enabling routes to be blasted for canals and railways.

After over 150 years of manufacturing gunpowder in Faversham, in the 1920 & 1930's the bulk of production moved to Scotland.

Marsh Works became a gravel extraction site and much of the evidence of the gunpowder production was quarried away.

Faversham's history is not limited to gunpowder, with evidence of occupation stretching back beyond Roman times. The town established itself as an important seaport and a centre for brewing. In 1698 Shephard Neame established its brewery in the town which remains a major part of the town's economy today.

Customer Care

Your New Home Warranty ensures that when you purchase a home from us, you can be confident it has been constructed to the highest of standards.

All our homes are built to National House-Building Council (NHBC) standards – the technical benchmark for newly-built homes. The standards provide guidance on every part of the building process, from foundations to decoration, and include tolerances, performance and technical standards. To find out more visit Technical Standards on the NHBC website.

On legal completion of your new home, the first two years of the warranty are covered by Anderson and supported by the Customer Service Team who can assist and provide advice on any issues or queries that may arise within this timeframe.

Faversham Lakes

Protection for the Future

Your home is covered by the NHBC Warranty (Buildmark) against structural defects for a 10-year period, following the date of legal completion. Should anything happen to your new home that is a result of a build failure – such as a leak, crack or infrastructure problem – it will be taken care of.

Further information can be found on the What Does Buildmark Cover? section on the NHBC website. Your interests are additionally covered by the Consumer Code for Home Builders, which we adhere to.

The Consumer Code applies to all home buyers who reserve to buy a new or newly converted home built by a home builder, under the protection of one of the supporting Home Warranty bodies.

Under the Consumer Code, buyers can be assured they will be treated fairly and given reliable and accurate information on their buying decision, amongst other things. Details of the Consumer Code will be discussed with you at reservation stage.
